

General Information

Taxpayers doing business within an enterprise zone and remaining in good standing with the Enterprise Zone Board may qualify for a gross income exemption and/or a credit against income or franchise tax. Use EZ schedules to determine the amount of gross income exemption or tax liability credit.

Part 1 A & B - Taxpayers with any business activity or income derived from sources both within and outside an enterprise zone may be required to allocate and apportion their income. Use designated Part 1A or Part 4A of Schedule EZ to determine the apportionment percentage when you apportion enterprise zone income. Please note that initially you will require two apportionment schedules, one for the base year and one for the current year. In subsequent years, you will require only one apportionment schedule unless the base year is changed from or to an annualized period.

Note: A taxpayer is exempt from the allocation and apportionment provision for purposes of the gross income exemption and employment expense credit if it:

- (1) Does not own, rent, or lease real property outside of an enterprise zone that is an integral part of its trade or business; and
- (2) Is not owned or controlled directly or indirectly by a taxpayer that owns, rents, or lease, real property outside of an enterprise zone.

In such cases the taxpayer will attribute all income to the zone.

Part 2 - Use Part 2 of Schedule EZ to determine the tax credit for qualified increased enterprise zone employment expenditures. If the calculated employment expense credit exceeds the qualified state tax liability you also must complete Part 3.

Part 3 - Use Part 3 of Schedule EZ to claim a carryover of employment expense credit and to record the remaining amount of unused credit.

Part 4 - Use Part 4 of Schedule EZ to determine enterprise zone gross income and the qualified increased amount exempt from gross income tax. See a separate schedule and instructions for completing Part 4, Enterprise Zone Gross Income Tax Exemption.

The certification at the bottom of Part 1B must be signed by any taxpayer using either Part 1 or Part 2 of the schedule. Taxpayers doing business in more than one enterprise zone should complete a separate schedule for each zone if there are different base years. Refer to the detailed instructions for each part. For more information, see Income Tax Information Bulletin #66.

Part 1A - Apportioned Enterprise Zone Adjusted Gross Income for Employment Expense Tax Credit

If the income of a taxpayer is derived from sources both within and outside an enterprise zone, the adjusted gross income attributed to the zone must be determined by use of an apportionment formula unless written permission from the Department of Revenue is granted or the statute exempts the taxpayer.

However, to determine enterprise zone gross income, the base year gross income attributed to the zone is subtracted from the current year gross income derived from the zone. Therefore, two separate apportionment schedules will be needed. The gross tax calculation is made on Schedule EZ Part 4, using the apportionment percentage, if any, determined in Part 4A. Schedule EZ, Part 4 is available upon request.

Line 1 (a)(b)(c)(d)(e) - Property Factor: The property factor is a fraction. The numerator is the average value during the tax year of real and tangible personal property used in the business within the zone (including rental property), and the denominator is the average value during the tax year of such property everywhere. Property owned by the taxpayer is valued at its original cost. Property rented by the taxpayer is valued at eight times the net annual rental rate, less any annual rental received by the taxpayer from sub-rentals. The average value of property will be determined by averaging the values of the beginning and the end of the tax period. If the values have fluctuated, the averaging of monthly values may be necessary to properly reflect the average value of the property factor for the tax period. Attach a schedule showing how these average values were computed.

Divide property value total of column A by column B and enter as a percent on line 1 of column C.

Line 2 - Payroll Factor: The payroll factor is a fraction. The numerator is the total wages, salaries, and other compensation paid to employees for services rendered the business in the zone, and the denominator is the total of such compensation for services rendered the business everywhere. Compensation is paid in a zone if (a) the individual's service is performed entirely within the zone; (b) the individual's service is performed both within and outside the zone, but the service performed outside the zone is incidental to the individual's service within the zone; (c) some of the service is performed in the zone and (1) the base of operations or, if there is no base of operations, the place from which the service is directed or controlled is in the enterprise zone; or (2) the individual's residence is in the enterprise zone. Payments to independent contractors and others not classified as employees are not included in the factor. Exclude payments to employees for services attributable to nonbusiness income.

Divide payroll value total of column A by column B and enter as a percent on line 2 of column C.

Line 3 (a) (b) (c) (d) - Receipts Factor: The gross receipt's factor is a fraction. The numerator is the total receipts of the taxpayer in the zone during the tax year, and the denominator is the total receipts of the taxpayer everywhere during the tax year. The numerator of the receipt's factor must include all sales made in the zone, sales made from the zone to the U.S. Government and sales made from the zone to a state which does not have jurisdiction to tax the activities of the seller.

For purposes of the employment expense credit the numerator will also contain intangible income attributed to Indiana including interest from consumer and commercial loans, installment sales contracts and credit / debit cards as prescribed under I.C. 6-3-2-2.2.

Total receipts include gross sales of real and tangible personal property less returns and allowances. Sales of tangible personal property are in a zone if the property is delivered or shipped to a purchaser within the zone regardless of the f.o.b. point or other conditions of sale; or the property is shipped from an office, store, warehouse, factory, or other place of storage in a zone, and the taxpayer is not taxable in the state of the purchaser.

Sales or receipts not specifically assigned above will be assigned as follows: (1) gross receipts from the sale, rental, or leases of real property are in a zone if the real property is in the zone; (2) gross receipts from the rental, lease, or licensing the use of tangible personal property are in a zone if the property is in the zone. If the

property was both within and outside the zone during the tax year, the gross receipts are considered in the zone to the extent the property was used in the zone; (3) gross receipts from intangible personal property are in a zone if the taxpayer's commercial domicile is in the zone and such property has not acquired a business situs elsewhere; (4) gross receipts from the performance of services are in a zone if the services are performed in the zone. If such services are performed partly within and partly outside the zone, part of the gross receipts from performance of the services will be attributed to the zone based upon the ratio of direct costs incurred in the zone to the total direct costs of the services, unless the taxpayer can directly attribute the service to the zone.

Sales to the United States Government: The United States Government is the purchaser when it makes direct payment to the seller. A sale to the United States Government of tangible personal property is in a zone if it is shipped from an office, store, warehouse, or other place of storage in the zone. Refer to the guidelines above for sales other than tangible personal property if such sales are made to the United States Government.

Add receipts factor lines (a) through (d). Also enter receipts everywhere in Column B. **Divide receipt total in column A by the total from column B. Enter the quotient in the space provided and multiply this amount by 200% for purposes of the employment expense credit. Enter the result in line 3 of column C.**

Line 4 - Total Percent: Add entries from lines 1, 2 and 3 of column C. Enter the sum.

Line 5 - Apportionment Percentage: For apportionment of enterprise zone income for purposes of the employment expense credit, divide the total percentage entered in line 4 by 4 if all three factors are present in column B.

The property and payroll factors are each valued as a factor of one (1) in the apportionment of income formula. The receipt factor is double-weighted as a factor of 2. In the event there is a total absence of a factor, divide the total percentage by the number of the remaining factor values present in the apportionment formula.

Part 1 B - Allocated Nonbusiness Enterprise Zone Income for Employment Expense Tax Credit

Complete this part if you are apportioning gross receipts and are excluding any income that is considered nonbusiness income.

Lines (1) and (2) Interest (long-term) and dividends from nonbusiness sources are allocable to an enterprise zone if the taxpayer's commercial domicile is in the zone. Dividends from foreign sales corporations (FSC or DISC) are treated as business income and must be apportioned.

Line (3) Net capital gains or losses (sales price less acquisition cost) from the sale of nonbusiness personal property are allocated to an enterprise zone if the property had situs in the zone at the time of the sale, or the taxpayer's commercial domicile is in the zone. Include net capital gain or loss from the sale or exchange of all real property located in an enterprise zone not used in the production of business income.

Line (4) Rents and royalties from tangible personal property are allocated to an enterprise zone if the property is located in the zone and is nonbusiness related.

Gross rents and royalties from nonbusiness related tangible

personal properties are allocated to an enterprise zone to the extent the property is located or utilized in the zone.

(a) The extent of utilization is determined by multiplying the rents and royalties by a fraction. The numerator is the number of days of physical location of the property in the zone during the rental or royalty periods in the tax year. The denominator is the number of days of physical location of the property everywhere during the rental or royalty periods in the tax year.

(b) Such rents and royalties are wholly allocated to an enterprise zone if the taxpayer's commercial domicile is in the zone.

Line (5). Patents and copyrights and royalties from intangible property not related to the production of business income are allocated to an enterprise zone to the extent they are utilized by the taxpayer in the zone, or the taxpayer's commercial domicile is in the enterprise zone.

A patent is utilized in a zone to the extent the taxpayer employs it in production or other processing in the zone or produces a patented product in the zone.

A copyright is utilized in a zone to the extent printing or other publication originated in the zone.

Line (6) Other nonbusiness income: Add other nonbusiness income not provided for in lines 1 through 5. Explain other nonbusiness income on a separate schedule and attach to the return.

Line (7) Enter in column A apportioned Indiana income, as modified, from Form IT-65 Schedule INK-1, and any portion of tiered partnership income attributed to the zone. Enter in column B the total non-unitary partnership and tiered partnership income reported on the federal return.

Line (8) Enter all related nonbusiness expenses other than state income taxes.

Line (9) Net nonbusiness and non-unitary partnership income or loss: Add lines 1 through 7, subtract line 8 for each column.

Part 2 – Enterprise Zone Employment Expense Tax Credit Calculation

I.C. 6-3-3-10 provides a tax liability credit to certain enterprise zone employers. The credit is the lesser of 10 percent (10%) of the increase in wages paid to qualified employees or \$1,500 multiplied by the number of qualified employees. A qualified employee is an individual who:

- (1) Has his principal place of residence in the enterprise zone in which he is employed;
- (2) Performs services of which 90% are directly related to the conduct of the taxpayer's trade or business located in an enterprise zone;
- (3) Performs at least 50% of his service for the taxpayer in the zone; and,
- (4) In the case of an individual who is employed by a taxpayer that is a pass through entity, was first employed by the taxpayer after December 31, 1998.

Except for employers who are defined as "pass through entities" an increase in wages is determined by subtracting wages paid to employees that could qualify in the base year from wages paid to qualified employees in the current tax year. The base year is the twelve (12) month period immediately preceding the month in which an enterprise zone is established. Divide the annual base period qualified wages by 12 to find the monthly base period wages.

Taxpayers whose tax years do not coincide with the designation of an enterprise zone must prorate their qualified wages for the period after designation. For the year in which an enterprise zone is designated, fiscal year taxpayers should prorate their qualified wages. See the worksheet in Income Tax Information Bulletin #66.

“Qualified state tax liability” means each taxpayer’s total income or franchise tax liability incurred under:

- (1) I.C. 6-2.1 (gross income tax) with respect to enterprise zone gross income subject to tax;
- (2) I.C. 6-3-1 through I.C. 6-3-7 (state adjusted gross income tax) with respect to enterprise zone adjusted gross income;
- (3) I.C. 27-1-18-2 (insurance premiums tax) with respect to enterprise zone insurance premiums; and
- (4) I.C. 6-5.5 (financial institutions tax)

as computed after the application of the credits that, under I.C. 6-3.1-1-2, are to be applied before this credit.

“Pass through entity” means a:

- (1) corporation that is exempt from adjusted gross income tax under I.C. 6-3-3-3.8(2);
- (2) trust;
- (3) limited liability company; or
- (4) limited liability partnership.

If a pass through entity is entitled to a credit but does not have a state tax liability against which the tax credit may be applied, an individual who is a shareholder, partner, beneficiary, or member of the pass through entity is entitled to a pro rata share of the computed tax credit.

If the credit exceeds the taxpayer’s qualified state tax liability for the taxable year, the taxpayer can carry any excess credit back three years and forward up to ten years until the enterprise zone terminates.

Caution: An eligible enterprise zone employer for purposes of the employment expense credit cannot be a governmental agency or not-for-profit organization (with no unrelated tax liability).

Part 2

Line 1 – Enter base period year. For a pass through entity, enter 1999. Enter on line 1a amount of base period wages paid; except, that for pass through entities, base period wages will be zero (0). Enter on line 1b amount of wages paid to qualified employees during the current year. However, pass through entities must enter amount of wages paid to only qualified employees, newly hired since 1999, during the current tax year. (Wages paid to otherwise qualified employees who were already employed by the pass through entity since before January 1, 1999 may not be counted.)

Line 3 – Enter figure based on number of qualified employees during the tax year. Caution: Employers who are pass through entities may count only those qualified employees that were first employed by the entity after December 31, 1998.

Line 6 - Taxable income, for purposes of the credit, is federal taxable income (before net operating loss deduction) with all applicable Indiana modifications. However, an S corporation with passive income or capital gains tax liability must enter amount computed on Schedule B, line D from Form IT-20S. Employers not subject to the apportionment and/or allocation method of computing zone income should disregard lines 7 through 12 and enter Indiana net taxable

adjusted gross income from zone sources on lines 6 and 13. Financial institution taxpayers and (pass through entities with no tax liabilities) must enter zero and go on to line 18.

Line 12 - Taxpayers whose Indiana adjusted gross income is totally eliminated by a net operating loss deduction will have no enterprise zone adjusted gross income tax and should enter zero on line 14. Taxpayers whose Indiana adjusted gross income is partially offset by a net operating loss deduction must determine the portion of the loss attributable to an enterprise zone source. Separately complete the apportionment Schedule EZ, Part 1 applicable to the loss year. Multiply the remaining net operating loss deduction used in the current year by this percentage and enter the product on line 12 as a positive figure.

Line 14 - Multiply line 13 by the tax rate of 3.4% with respect to “enterprise zone adjusted gross income.”

Line 15 - Taxpayers filing Form IT-20 must complete Schedule EZ Part 4 to determining enterprise zone gross income. Zone gross income subject to tax is reflected on line 8 of Part 4 and is equal to the lesser amount of the total receipts of the base tax year or the current tax year.

Line 18 - The entry on this line represents total qualified state tax liability. Taxpayers filing Form IT-20SC must enter the amount from line 14 on line 18. Taxpayers filing Form IT-20 must enter the greater of line 14 or line 17. Financial institution taxpayers must enter net financial institution tax due (line 29 of Form FIT-20) reduced by other nonrefundable state tax credits.

Line 19 - This is the credit available for the current year plus any applied credit carryover. A Pass through entity without any current year income tax liability may pass through to each of its members their pro rata share of this credit.

Line 20 - When the total credit (on line 5), exceeds the current year qualified state tax liability (on line 18), the taxpayer may carry the excess back and/or forward. Refer to instructions for Part 3.

Note: A taxpayer is not entitled to a refund of any unused credit.

Part 3 – Employment Expense Tax Credit Carryover

When the enterprise zone employment expense credit exceeds the taxpayer’s qualified state tax liability for the tax year, the remaining credit may be carried back three years and applied to each year whether or not a credit is utilized, and/or carried forward up to ten years until the enterprise zone terminates.

The application of the credit, when carried over, must be shown on Schedule EZ, Part 3. A copy of this schedule should be attached to any return on which the taxpayer is applying the credit. A separate schedule should be completed when a credit is available from more than one tax year.

Note: Instructions for increased gross income tax exemption starts on Part 4 of Schedule EZ 4.

Part 1 A**To Determine Apportioned Enterprise Zone
Adjusted Gross Income for Employment Expense Tax Credit**

Name	Federal Identification Number		
This schedule must be completed by taxpayers having income from sources both within and outside the zone, who are not otherwise exempt from the allocation and apportionment provisions for determining enterprise zone adjusted gross income.	(Enter percent to two decimals, e.g. 67.89%) $\frac{\quad}{\quad}$		
	Column A Total Within the Zone	Column B Total Within and Outside the Zone	Column C Percent Within the Zone
1. Property Factor Average value of owned property from the beginning and the end of the tax year (Value of real and tangible personal property used in the business at original cost.)			
(a) Property reported on federal tax return (average value for tax year)			
(b) Fully depreciated assets still in use at cost (average value for tax year)			
(c) Inventories, including work in progress (average value for tax year)			
(d) Other tangible personal property			
(e) Rented property (8 times the annual rental)			
Total Property Values: add lines (a) through (e)			1 . %
2. Payroll Factor Wages, salaries, commissions and other compensation of employees related to business income included in the return			
Total Payroll Value:			2 . %
3. Receipts Factor (less returns and allowances):			
(a) Sales delivered or shipped to the enterprise zone			
(1) Shipped from within the zone			
(2) Shipped from outside the zone			
(b) Sales shipped from the zone to:			
(1) The United States Government			
(2) A location outside a zone where the only sales activity consists of the solicitation of orders which may be accepted but are not subject to approval or rejection at such location.			
(c) Interest income and other receipts from extending credit attributed to the zone			
(d) Other gross business receipts not previously apportioned			
Total Receipts: Add column A, lines 3(a) through 3 (d); enter all receipts in column B			
Adjusted Receipts Percent Within Zone: Divide total receipts, column A by amount in column B, enter percent within zone here			3 . %
			4 . %
4. Total Percent (sum of percentages in column C, lines 1,2 and 3):			5 . %
5. Enterprise Zone Income apportionment Percentage: Divide total percent on line 4 by 4 if all three factors are present			

NOTE: If either property or payroll factor for column B is absent, divide line 4 by 3. If the receipts factor is absent, you must divide percent on line 4 by 2.

Part 1 B**To Determine Allocated Nonbusiness/Non-Unitary
Enterprise Zone Income for Employment Expense Tax Credit**

Allocate, using the provisions of I.C. 6-3-2-2(g), any income classified as nonbusiness derived from sources within the zone and from sources everywhere.	Zone Sources Column A	All Sources Column B
(1) Dividends (not from DISC or FSC) (excess after dividend deduction)	1	1
(2) Interest (other than U.S. Government interest)	2	2
(3) Net capital gains or losses	3	3
(4) Rents and royalties from tangible personal property	4	4
(5) Patents, copyrights, and royalties from intangible property	5	5
(6) Other nonbusiness income	6	6
(7) Distributive share income from Non-Unitary partnerships and tiered partnerships	7	7
(8) Less other related expenses for nonbusiness income	8	8
(9) Net nonbusiness and non-unitary partnership/tiered income or loss (Add, lines 1 through 7, subtract line 8 for each column)	9	9

I certify I have examined this schedule, and to the best of my knowledge and belief it is true, correct and complete. I further certify that Indiana business activities were not substantially reduced for the purpose of relocating the business in an enterprise zone.

Location name of Enterprise Zone(s) or Airport Development Zone		Base Period Year	Base Period Qualified Wages		Current Tax Year Qualified Wages
1. Qualifying wages attributed to zone (Pass through entities enter zero on line 1a)		1 a	1 b		
2. Qualified increase (subtract line 1 a from line 1b)				2	
3. Multiply line 2 by 10% (0.10)				3	
4. Number of qualified employees (except for pass through entities, number first employed after 12-31-1998): _____ X \$1500				4	
5. Enter the lessor of line 3 or line 4 (This is your current year employment expense credit)				5	
6. Current year taxable income plus Indiana modifications (see instructions)		6			
7. Nonbusiness income from all sources from Part 1B, line 9 of column B		7			
8. Net taxable business income (subtract line 7 from line 6)		8			
9. Apportionment percentage from Part 1A, line 5		9	%		
10. Enterprise zone business income (multiply line 8 by line 9)		10			
11. Nonbusiness enterprise zone income from Part 1B, line 9 of column A		11			
12. Enterprise zone net operating loss deduction (see instructions)		12			
13. Total "enterprise zone adjusted gross income" (add line 10 and line 11, subtract line 12)		13			
14. Enterprise zone adjusted gross income tax (multiply line 13 by 3.4%)				14	
<i>Corporate taxpayers filing Form IT-20SC or IT-20S and individual taxpayers filing Form IT-40 or IT-40PNR should disregard lines 15 through 17 and enter the amount from line 14 on line 18 below. Corporate taxpayers subject to gross income tax must complete Schedule EZ, Part 4 before proceeding.</i>					
15. Enter, from Schedule EZ part 4, the amounts from: (lines 8A and 8B); or (8C and 8D), whichever tax year's total receipts is lower, in the respective tax rate columns		a High Tax Rate Receipts		b Low Tax Rate Receipts	
16. Multiply the amount on line 15 column a by the high rate of 1.20% (.012) and amount on column b by the low rate of 0.3% (.003)		15		16	
17. Total enterprise zone gross income tax (total of amount on line 16)				17	
18. Enter the greater of line 14 or line 17 or the net financial institution tax, if applicable. (This is your qualified state tax liability) A pass through entity with no tax liability will enter zero.				18	
19. Enter the lesser of line 5 (plus applied carryover credit) or line 18. If line 18 exceeds line 5, add your available unused carryover credit from other tax years, up to the remaining amount of your qualified state tax liability				19	
<i>(Carry this amount to the appropriate credit entry line on the annual corporate or individual income tax return. Pass through entities with no income tax liabilities enter the pro rata share of credit on Form IN K-1.)</i>					
20. Unused credit carryover - If line 5 exceeds line 18, enter the excess here and on Part 3				20	

Part 3 Employment Expense Tax Credit Carryover
